

Spectrum

MetaTrader 4

INDUSTRY LEADING FX ONLINE TRADING SYSTEM COMBINED WITH BEST-OF-BREED CROSS-ASSET TREASURY PLATFORM

Financial Software Systems and MetaQuotes offer broker-dealers a fully integrated one-stop solution for all their Forex trading, client-facing and operational needs.

Using MetaTrader4 and Spectrum allows for:

- Multi-asset support, including: Forex, CFDs and Futures
- High volume and user scalability
- Detailed analytic tools
- Real-time collateral and credit limit monitoring
- Integrated multi-lingual Web publishing for comprehensive reporting

Continue to utilize the best of MetaTrader4:

- Recognized Forex trading system leader used by hundreds of brokerages world-wide
- Robust client-facing execution and analytics
- Multi-lingual support
- MT4 APIs provide extendibility to other platforms (e.g. CRM)
- Use of automated trading programs
- Mobile trading

Let Spectrum Supply the Back-Bone to your Operations:

- Real-time monitoring of client positions, risk, P&L, limits and credit using a multi-tiered alert notification system
- Counterparty risks, market risks, and trader risks can be closely monitored with Spectrum's flexible Limits and collateralized trading modules
- Real-time, Multi-lingual Web publishing of client positions, P&L and margin status
- Advanced cash management features, including interfacing cash balances back to MT4.
- Ability to allow non-cash deposits / collateral.
- Advanced deferred rolling methods, including class spreading and interfacing cost of carry-back to MT4 at the trade level
- Full support of all CFD instruments
- Users can create complex commission structures that can be utilized to track commissions and fees that are paid to salespeople and brokers, as well as fees that are charged to clients
- Spectrum can easily process up to 300,000 transactions per day and with horizontally scaling can facilitate volumes of up to 1,000,000 transactions per day

The Spectrum and MetaTrader 4 Approach:

ABOUT METAQUOTES - MetaQuotes Software Corp. (www.metaquotes.net) is a B2B software development company established in 2000. Since its establishment, the company has achieved outstanding success in developing and delivering a stream of innovative products, services and solutions in the given field. Working with world-leading businesses, MQ has earned the reputation as a supplier of the most reliable software solutions. Today its most successful product, MetaTrader 4 is the most popular Forex trading platform in the world.

ABOUT FINANCIAL SOFTWARE SYSTEMS - Founded in 1992, Financial Software Systems (www.finsoftware.com) provides Treasury and Risk software for banks, broker-dealers, and fund managers. The Spectrum System supports the full range of front, middle, back office and accounting activities across a complete range of assets, including: foreign exchange, money market, interest rate, vanilla and exotic derivatives, fixed income, and equity instrument. Spectrum also provides configurable straight-through-processing (STP) and out-of-the-box integration to third-party platforms.
